

Spire Junior School Newsletter

Date: 14.03.2025

Mrs Vernon's Message:

We have all enjoyed celebrating British Science Week this week – thank you Miss Sharman! Year 6 have been learning all about the heart and have even benefitted from watching a dissection at Parkside (thank you Mrs Welsh!). Year 5 have followed on from our World of Water assembly from Severn Trent a few weeks ago with an experiment about 'flushable materials' and have also been looking at the effects of sugars on our teeth. Our Year 3 /4 classes have been making their own replica glaciers and experimenting with their melting times and conditions. All in all, a great week had by everyone!
