

Homework at Spire Junior School

Children must read to an adult at least three times each week and then the adult should sign the reading record – please feel free to make any comments about how well your child is doing (the reading records are checked weekly). As well as this, we have purchased a weekly 'First News' reading comprehension task for the children to complete.

Spelling homework is given out on a Monday by their spelling group teacher. The children should practise them, little yet often, as they are then tested on them every Friday (practise makes it so much easier to achieve full marks).

Mathematics homework (if required) is given out each Friday. It should be completed and handed in by the following Thursday (this is so it can be marked and new homework put in their books for the next day). Otherwise, as a school we have signed up and pay for times table rock stars which the children are free to access as often as they wish. Please encourage your child to complete their homework and return it to school by the due date. Many thanks for your support.

Your child also has the option to use the homework club every Monday 3.30pm – 4.30pm

In this club they have access to iPads and support for their homework.
