Dear Parents and Careers,

Today your children have been involved in Safer Internet Day. The children have been involved in a number of different activities to build on the work they do throughout the year on online safety.

As part of Safer Internet Day, we would like you to work with your child at home to create a poster about 'Online Safety.' This poster can include any of the issues that surround online safety such as: cyber bullying, digital footprints, knowing how to keep safe online or how to block and report problems. All completed posters will be entered in a competition to have their poster used as the screensaver on our class computers and ipads. If you wish to enter this competition then please have your entries in by Friday 16th February.

Online safety is a very important issue and we regularly spend time with the children discussing issues around this. Attached is a copy of some information that you may find useful. We will be updating our website soon with links to websites to help you be more informed with online safety and ways you can help protect your child. Please feel free to come and talk to us if you have any queries or concerns about online safety.

Yours sincerely

Mrs Vaughan

ICT Co-ordinator
